PROJECTS

Decentralized Chit Funds: A Sidechain Approach for Scalability – Final Year Project • Pondicherry University

- This project elaborates “How Sidechain Technology can be included in the Blockchain based chitfund system in order to make faster transactions and data storage in minimum cost” with architectural prototype and sequence diagrams.
- As it is study research, this also include what are the impacts, what are the alternatives available for the sidechain technology, why this is a best alternative and which platform can be effectively work with sidechain technology.

Impact of LEAD BANK in financial inclusion - Indian bank • August 2023 - September 2023

- Done internship in LEAD BANK, Indian bank, Zonal office, Puducherry for a month.
- In the meantime, did a project on "impact of lead bank in financial inclusion" with an objective to elaborate the exact impact made in financial inclusion at Puducherry by lead bank using:
- The target and achievement data for loans comparing previous years and
- What are the other measures taken by the lead bank to promote the financial inclusive services to the public.
